Dear Dian,

I just got hate speech in twitter and was blacklisted from getting jobs in Indonesia.

The thread is getting 2.6 million views. It is really broke my reputation. I suspect it was fabhian because all of his allies in my uni along with him always talks bad about me in the back telling others that broke my reputation.

I need your help and huajia also HR from Indonesia to cek all of his messages to his friends. This is really making bad impression to both me and AWS. Hope we can fix this soon as well fix AWS reputation in Indonesia.
